MEMORANDUM FOR OSS

*Retirement Funds Retirement*

FROM: SFD

Subject: Retirement Deductions

Reference: Your memorandum dated 16 July 1947

It is anticipated that within ten (10) days the Director, CIO, will issue a policy regarding retirement deductions. Unofficially, it is anticipated that all employees (both vouchered and unvouchered) will be eligible for retirement and that all employees must accept retirement participation. At that time retirement deductions will commence, and, in addition, we will compute the amount for each person which would have been paid in during their past period of Federal service on unvouchered funds, so that they can receive retirement credit for past periods if they so desire.

If they do not wish, or are unable to pay back in for prior periods, they can legally do so at any future date.
